CONFLICT MINERALS DECLARATION

The Security Exchange Commission (SEC) has drawn up a Law providing the requirements for the assessment and report about "Conflict Minerals" as stated by the "Dodd-Frank Wall Street Reform and Consumer Protection Act" approved in year 2010.

This Law requires that the manufacturers should inform if their products contain metals coming from the Democratic Republic of Congo or neighbouring countries, where the extractions of these minerals can directly or indirectly finance violation of human rights or benefit unlawful military groups in those countries.

STAMPOTECNCA does not source minerals directly from mines and foundries. Moreover, we have implemented a check process with our suppliers with a view to guarantee that they also do not use minerals coming from the Conflict Regions for their products and engage not to source knowingly minerals coming from those Regions.
